Fall 2012

from the dentists

## An Open Invitation

### To you & yours

We appreciate your business and friendship, and though you may not realize it, your referrals are also crucial to our success. Your ongoing recommendations let us continue to grow. In turn, we can invest in technology, additional staff, expanded hours, and other improvements to offer you and yours the most convenient and very best dental treatment.

Your referrals are our number-one source of new patients and not one of our team members takes that for granted. We are proud of your confidence in us and sincerely look forward to providing you, and each person you recommend, with only the highest quality of service and care.

Thank you in advance! We look forward to welcoming your friends, family, and colleagues with a smile!

*Yours in good dental health,*

*Dr. David Hakimi  
& Dr. Armon Eben*

### Send your family and friends to us!

When any adult becomes our patient, you'll receive a **\$100 gift certificate** towards any future care.

**Thank you!**

*Don't Let  
Your Insurance  
Go Unused!*

The end of the year is quickly approaching and with it comes the expiration of many dental plans. More than 90% of dental plans are based on a calendar year. If you do not use the benefits you are entitled to, they are gone as of December 31st. Your benefits are not carried forward into the next year.

If you are thinking about getting dental care sometime this year, now's the time. Many treatments can take weeks to complete once treatment options are sorted out and insurance considerations are resolved.

Please call today and book your dental work...before your 2012 dental insurance expires.

THANK YOU FOR ALL YOUR REFERRALS. WE APPRECIATE THEM!

# It's For REAL

## Protect your future with dental implants

Dental implants, once considered the wave of the future, have become virtually routine in practices like ours with teams that have received special training. Ideally, an implant should be placed immediately after losing even one tooth to protect you against receding bone and shifting teeth. Even so, in the event that time has passed and bone loss occurred, modern techniques for bone regeneration make dental implants a viable option for many people.

### Implants can be used...

- to replace teeth lost by decay, gum disease, or trauma once the jaw has stopped growing.
- to secure and prevent slipping of removable dentures and bridges.

There is little down time, and while there are some procedural differences between placing cosmetic implants and those to anchor bridges or dentures, for best results we prefer to do it in stages...

### First...

- We simply place your implant into the bone where you are missing a tooth.

### And...

- After a few months when the implant becomes securely anchored, we will permanently attach a custom-designed replacement tooth that will blend in perfectly with your natural smile.

## Dazzle Your Smile For The Holidays!

### With cosmetic veneers

A dazzling smile can ignite a room. It projects strength, confidence, and beauty. For decades dentists have worked on ways to treat dental problems. We can now change the way your teeth look and the way you feel!

Because your mouth is one of the focal points of your face, it plays a major role in how you perceive yourself and how others perceive you. And now, taking steps to improve your appearance is an investment in your long-term health and well-being apart from making a lasting impression this holiday season!

Cosmetic veneers can make a truly dramatic difference ... even in an "already nice" smile.

Veneers can cover and correct the look of your smile if your teeth have stains and chips, slight gaps, or are overlapping and uneven. Veneers can be designed to improve the proportions of your smile as well.

What's so special about cosmetic veneers? Hand-sculpted porcelain veneers are applied to the outside surfaces of your teeth and they are long-lasting. Also, applying veneers doesn't involve moving your teeth. The procedure is quick, painless, and your picture-perfect smile will look completely natural!

Give us a call. Your smile could be bright and white ... just in time for the holidays!
